We offer a professional laundry service for your horse blankets, saddle pads, dog beds, etc.

We use only detergents that are suitable for the respective material. These keep the functional fabrics of the horse blankets breathable and waterproof.
Upon request, the blankets can be treated with a wash-in waterproofing agent for extra protection.
We do not differentiate based on the filling of the blankets. All rain and winter blankets are priced the same.

If horse hair needs to be removed by hand because the blanket is very dirty, this will be billed based on the amount of work involved.
