The WEATHERBEETA Reflective Wrap-Around Kidney Blanket is a functional riding blanket designed for demanding conditions, combining visibility, weather protection, and comfort in a well-thought-out design. The highly reflective material enhances visibility in traffic and in low-light conditions, while the waterproof and breathable construction ensures a comfortable fit

Product information

during rides. The silver finish emphasizes the blanket’s clean, modern design.

The riding blanket, featuring a saddle cutout, is designed for practical use at dusk, in the rain, and in changeable weather. The 210T polyester lining ensures a smooth interior and helps the blanket stay in place. The Velcro fasteners at the withers and chest make it easy to secure the kidney blanket, while the large tail flap with tail cord offers additional protection and stability. The 0 g fill makes this model a lightweight solution for transitional seasons and flexible everyday use.

- Waterproof and Breathable Riding Blanket
- Highly reflective material for increased visibility
- Saddle cutout for use while riding
- 210T polyester lining
- Velcro fasteners at the withers and chest
- Large tail flap with tail cord
