EQX Liver Protection

- A Healthy Liver—For More Energy Every Day!
- Supports your horse's liver health
- Helps detoxify the liver

Product Description

For a Healthy Liver

Product information

Whether due to stress, medications, or environmental stressors—your horse's liver is under daily strain. EQX Liver Protection helps the liver detoxify and supports its recovery so your horse can be full of energy again.

When is it recommended?

- For existing liver problems
- After anesthesia or medication
- For Cushing's, EMS, or PSSM
- After poisoning from plants, water, or feed
- Natural active ingredients that strengthen the liver:
- Milk thistle: Protects and regenerates the liver
- Artichoke: Supports fat digestion and liver metabolism
- Turmeric: Helps reduce inflammation
- Garlic: Detoxifies and strengthens the immune system

Usage and Dosage:

1 measuring spoon (approx. 10 g) per 100 kg of body weight once daily. You can easily mix EQX Liver Protection into the food or feed it directly. It should be fed for a maximum of 6 consecutive months. It is recommended to consult your veterinarian before use or if extending the feeding period.

Ingredients

Composition:
Fermented corn
flakes, wheat bran, herbs (milk thistle, peppermint), Reishi powder, chopped alfalfa, corn germ, beet fiber, carrots, diastatic malt, isomaltulose molasses, oilseed meal blend (flax, sunflower seeds, black cumin seeds), brewer's yeast, fruit fiber (apple/grape), artichokes, fermented barley flakes, magnesium oxide, seaweed lime, salt, turmeric, garlic, dicalcium phosphate, cold-pressed oilseed mixture (flax, sunflower seeds, black cumin seeds), magnesium fumarate, vinegar, seaweed meal Sources of protein and fiber: protein from yeast, amino acids, and oilseeds; fiber from alfalfa, herbs, fruit fiber, and beet fiber; easily digestible carbohydrates: fermented corn and barley flakes

Analytical Constituents:

Crude protein (9.4%), crude ash (9.4%), crude fiber (7.9%), Crude fat (9.1%), calcium (Ca) (1.6%), potassium (K) (0.7%), lysine (0.5%), magnesium (Mg) (0.7%), methionine (0.2%), Sodium (Na) (0.5%), Phosphorus (P) (0.4%), Starch (16.0%), Sugar (4.4%)

Technological additives:

Diatomaceous earth (purified) E551c (4,000 mg), Liquid lecithin 1c322i (50,000 mg)

Notes

Not suitable for pregnant mares or foals under 6 months of age. Contains yeast products. Pellets, ideal for horses with dust allergies. Do not feed if the horse has allergies to any of the ingredients or suffers from bile flow disorders.

Anti-Doping and Medication Control Rules

In accordance with the anti-doping and medication control rules of the German Equestrian Federation (DGEV), this product has a recommended withdrawal period (from the last administration of the product until competition) of 48 hours. According to the FEI (Fédération Équestre Internationale), this product is not relevant to doping regulations.

Storage Instructions: Do not store above 25°C. Use within 6 months after opening.
