Hard-shell case:	Yes

"Hard-Shell Protection and Flexibility" The unique Hybrid Jumping Boots and Foul Rags add two more innovative products to the Stübben & Evolution product line: The horse’s tendons and fetlock joints are anatomically protected while ensuring maximum comfort and performance, and the revolutionary hard-shell design guarantees a free, natural range of motion without restrictions. The Stübben & Evolution Hybrid products offer reliable protection against impacts—while the breathable design ensures constant ventilation of the horse’s leg. The Hybrid jumping boots and fetlock boots are each available with or without a fleece lining in sizes M and L in brown and black.
