Officinalis Protective Repair – Intensive Care & Protection for Skin and Coat

Officinalis Protective Repair is a highly effective care gel designed to regenerate and protect stressed areas of a horse's skin. Enriched with natural extracts from medicinal plants such as calendula and St. John's wort, as well as zinc oxide, neem oil, and colloidal silver, the cream actively promotes cell renewal, has a soothing effect, and supports the skin's natural barrier.

The rich, non-greasy texture absorbs quickly and forms a breathable protective film that shields the skin from external factors such as moisture, friction, and insects—ideal for chafed areas, minor skin injuries, or after clipping.

Features:

- Regenerating and protective
- with plant-based active ingredients (e.g., calendula, St. John's wort)

Product information

- soothes irritated and stressed skin
- Suitable for daily use
- Free of artificial colors and preservatives

Directions: Apply a small amount to the affected area and gently massage in. Use several times a day as needed.
