Skin-Soothing Care for Horses **Ideal for use in the summer**,
Sweetitch Skin Care for Horses is a product specifically developed to relieve itching and skin irritation in horses. Horses are often prone to skin problems such as summer dermatitis—commonly known as summer eczema—a common condition caused by black fly and mosquito bites. This is where Sweetitch comes in to provide effective relief and soothe itching. The gel formula is suitable for the mane, tail, and lower abdomen. **Horse Skin Care with a Gentle Formula That Respects the Horse's Well-Being**
This horse skin care product is formulated with natural ingredients selected for their soothing and anti-inflammatory properties to support the natural recovery of the horse's skin. Sweetitch consists of plant-based oils and Dead Sea minerals that help cleanse, moisturize, and soothe the skin. It also contains extracts of green tea, calendula, common comfrey, cajeput oil, and rosemary oil. When Sweetitch is applied to the horse's skin, it forms a protective barrier that reduces itching and helps prevent further irritation, thereby promoting the horse's healing and well-being. One of the unique features of Sweetitch horse skin care products is their non-greasy and non-sticky formula. This means that when the product is applied, no unpleasant residue remains on the horse's skin

Product information

or coat. Sweetitch is quickly absorbed, allowing for practical and convenient application without disrupting the horse’s behavior or activities. Whether for relieving mild itching or treating more severe cases of summer dermatitis, Sweetitch for horses is a valuable ally. It soothes irritated skin, reduces itching, and improves the horse’s overall well-being. Thanks to its natural formula, it can be used regularly without causing any unwanted side effects. Don’t let skin problems affect your horse’s well-being—try Sweetitch Horse Skin Care and see the difference for yourself.
