Natural Leather Care Cream with Avocado and Almond Oil

Officinalis Avocado Leather Cream is designed to care for and preserve leather after cleaning with soap. For cleaning leather, we recommend Avocado Leather Soap.

Leather is a high-quality material that requires regular care to remain supple, clean, and well-maintained. Leather must not only be cleaned on the surface; it also requires deep care to preserve its elasticity and suppleness.
The innovative formula of this leather care product cleans and preserves without damaging the leather or its color.

The active ingredients, combined with plant extracts and essential oils, nourish, disinfect, and clean the leather. The leather care cream restores elasticity to the leather and prevents the growth of mold and bacteria.
