Glam Version
The uvex sportstyle diamond is a highly elastic, non-slip riding glove that is supple and breathable, known for its durability and guaranteed to provide maximum comfort.
"For the new Glam Edition, the uvex sportstyle diamond, uvex collaborated with the designers at Swarovski® to create a new design: multicolored Swarovski® crystals and pearls sparkle brilliantly on the glove’s closure tab. The color palettes of the glittering elements are coordinated with the glove’s color: clear, anthracite, and dark tones on the black version, and various shades of blue and violet on the blue and white versions of the glove. A unique design developed exclusively for uvex. By the way, the uvex sportstyle diamond pairs perfectly with the uvex suxxeed diamond riding helmet—because riding without a little sparkle just isn’t
