Product information

Color: black

The "Ivana" KavalSH4 bridle features an English-style combination noseband. The side straps are firmly sewn to the noseband via a loop, which slightly relieves pressure on the nerve pathways leading to the mouth. The headpiece is anatomically contoured. The noseband and headpiece are softly padded and conform comfortably to the contours of the horse’s head. Includes narrow, rubberized reins with barbs.

KavalSH4 – Removable stop strap without a visible attachment
For bridles with the KavalSH4 designation, the curb strap is removable. What makes this special is that the mounting for the curb strap is not visible, unlike on conventional bridles with removable curb straps.

- "Ivana" KavalSH4 bridle
- English-style noseband, adjustable on both sides
- KavalSH4 (removable stop strap with no visible attachment)
