Versatile and extremely flexible—that's the WELDON. Convenient: This all-around glove is **TOUCHSCREEN COMPATIBLE**, so you can answer calls on your smartphone without taking off the glove. The thumb and index finger feature an elaborate **3D cut** designed to allow for easy and quick touchscreen operation without compromising comfort. The glove also impresses equestrians with its slim fit. ROECKL's exclusive COMFORT CUT—a particularly comfortable design—eliminates the need for a thumb loop. The back and palm are made from **warm**, **soft**, and exceptionally **stretchy** Polartec® **Power Stretch®** Pro. An extra-heavyweight fabric is used to provide even more warmth. The outer seams offer an additional boost in comfort and grip. Both practical and

Product information

stylish: the palm, elaborately silicone-coated with countless ROECKL logos, provides **a perfect grip** on the reins. The area between the ring finger and little finger has also been silicone-coated. The red silicone-coated pull tab makes it easier to put on the gloves, and the reflective design elements round out the well-thought-out features.
