Product information

Extra-Strong Insect Repellent Spray Lotion

The SP Extra-Strong Spray Lotion, for extra protection against pesky insects. Usage: Reliably protects sensitive skin areas of horses with eczema from allergy-aggravating insect bites caused by black flies and horseflies. Effectively counteracts infestations by ticks, flies, and other pests. The product is also well-suited for use against all types of louse flies. Ingredients: The highly concentrated active ingredient derived from the leaves of Eucalyptus citriodora is excellent for keeping allergy-triggering midges at bay (alcohol-free).
