CellaVie® Dog RelaxPlus Premium Soft Sticks
— Cell Nutrition for Relaxation. Dietary supplement for dogs

Brief Description

CellaVie® Dog RelaxPlus Premium Soft Sticks combine a unique taste with highly effective cellular stress management. Made with 81% premium Swiss lamb, soothing natural herbs such as lemon balm and chamomile, and innovative Cell-K30-Nutrition® nucleotides, they promote your dog's inner balance without making him drowsy. The perfect soft premium treat for strong nerves and greater calm in everyday life.

Swiss premium treat for strong nerves and cellular stress management

Whether it's loud noises, being alone, traveling, or unfamiliar situations—stress not only takes a mental toll on dogs but also wears down the entire organism, right down to the cellular level. During stressful periods, the body's need for cellular building blocks increases dramatically. Tissues that are particularly sensitive to stress, such as the intestines and structures near the nerves, are under heavy strain and require a great deal of energy for regeneration. If the body lacks these essential building blocks, natural stress resistance decreases and inner balance is lost.

The solution is CellaVie® Dog RelaxPlus Premium Soft Sticks—a highly innovative combination of genuine Swiss premium flavor and scientifically sound cellular nutrition. With an outstanding 81% fresh Swiss lamb (including valuable offal), these soft sticks are an absolute treat for every dog. The carefully crafted formula combines soothing natural herbs such as lemon balm, passionflower, St. John's wort, and chamomile with 1.2% of the revolutionary Cell-K30-Nutrition® nucleotides. While the herbs gently promote inner calm—without making your dog drowsy—the nucleotides, as essential building blocks of DNA and RNA, play a key role in cellular stress management. They help the body counteract oxidative stress and promote the rapid regeneration of heavily stressed tissues. Reward your dog with the highest Swiss quality and give him true inner balance for a better quality of life.

5 reasons why CellaVie® Dog RelaxPlus Premium Soft Sticks are good for your dog:

- Premium quality from Switzerland: With 81% of the finest Swiss lamb (fresh meat and offal), these sticks guarantee maximum appeal and pure enjoyment with every treat.
- Promotes inner calm WITHOUT causing drowsiness: Time-tested natural herbs such as lemon balm, passionflower, and chamomile support balance while allowing your dog to remain alert and engaged in daily life.
- Optimizes cellular stress management: As essential DNA building blocks, the innovative nucleotides help the body respond better to stress and specifically counteract oxidative stress.
- Regenerates stress-sensitive tissues: Since stress dramatically increases nutrient requirements, a constant supply of nucleotides promotes cellular renewal in heavily stressed areas such as the intestines and nervous system.
- Perfect for daily use: The soft, smooth consistency makes portioning particularly easy—ideal as a daily, stress-relieving treat during exciting phases of life.

Composition & Analytical Constituents

Composition: Swiss lamb (fresh meat, offal) 81%, plant fibers, lemon balm, passionflower, potato flakes, St. John's wort, chamomile flowers, hop flowers, Cell-K30-Nutrition® nucleotides 1.2%, minerals, ginseng.

Analytical Constituents:

- Crude protein: 40.37%
- Crude fat: 18.55%
- Crude fiber: 12.64%
- Crude ash: 5.79%
- Moisture: max. 18.00%

Feeding Recommendations & Usage

- Daily feeding recommendation: 1 Soft Stick per 10 kg of body weight.

Product information

- Usage: The soft sticks are ideal as a daily, high-quality treat during stressful times (e.g., thunderstorms, moving, separation anxiety). For maximum relaxation, we recommend combining them with the daily dose of the CellaVie® RelaxPlus powder mixture.
- Special Notes: Please always provide your dog with plenty of fresh drinking water.
- Storage: Store in a cool, dry place. After opening, be sure to reseal the package tightly to preserve the fresh, soft texture of the sticks.
