Advantages of the SWEET Copper Midpiece:

- Greater acceptance • Pleasant taste
- Stimulates saliva production, promoting feeding
- The solid copper alloy (90% copper, 7% iron + aluminum, nickel-free) is highly durable
- Your horse feels comfortable with SWEET Copper Advantages of the rings:
- The movable rings on the water snaffle automatically bring the bit into the correct position in the horse’s mouth when the reins are applied.
- The free-moving rings allow the horse to slightly adjust the position of the bit in its mouth on its own, which stimulates chewing and leads to better acceptance.
- For young horses as well as inexperienced riders, the water snaffle should always be the first choice.
