incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Size of the bit:	13 cm
Thick bridle:	18 mm

The KK ULTRA mouthpiece, in which the olive (center piece) is rotated 45 degrees, ensures gentle yet highly effective communication with the horse. In addition, a movable part has been incorporated into the center piece, which promotes the horse's concentration and improves its responsiveness to rein aids. The use of WH ULTRA bits is particularly recommended for horses that do not respond appropriately to rein aids. The tongue is stimulated, and its sense of touch is utilized in an unparalleled way. The horse relaxes and maintains its focus on the tongue. It is no longer as easily distracted and better accepts the rider's precise rein aids.
