| Size of Riding Gloves: | 7.5 |

Often copied—never equaled: The ROECK-GRIP WINTER from ROECKL SPORTS is the unmistakable original.

And you can really feel the difference. As is so often the case, it’s the details—and above all, the material—that make all the difference. ROECK-GRIP® is an exclusive material. It’s extremely **breathable**, **elastic,** and **supple**. In short: **It fits like a second skin.** At the same time, it offers **exceptional grip**. For the winter model, ROECK-GRIP® has been additionally laminated with a **warm**, **soft** Micro Bemberg lining. The lamination process bonds the lining to the outer material across the entire surface, thereby

# Product information

preventing the two layers from slipping or twisting. This enables a **sensitive grip** on the reins. The Munich-based company also places great emphasis on build quality: the individual parts are sewn together with precise handwork. Seam tolerances of no more than one millimeter are just one tangible measure of quality, since comfort cannot be measured. It’s the cuts and proportions that make the difference. Here, ROECKL excels with 180 years of experience in the art of glove-making. Practical: The ROECK-GRIP WINTER can be machine-washed at 30° Celsius.

**Back of the hand:** ROECK-GRIP® laminated with Micro Bemberg
**Palm:** ROECK-GRIP® laminated with Micro Bemberg
**Features:** Strap with Velcro fastener Machine washable at 30° C **Gender:** Unisex
