**CellaVie® Dog SensitivePlus Soft Goodies**
: Cellular Nutrition for the Gastrointestinal Tract. Dietary supplement for dogs

**Brief Description**

CellaVie® Dog SensitivePlus Soft Goodies are the ideal combination of an irresistible treat and gentle cellular nutrition for the stomach. With 70% chicken, soothing herbs such as fennel and marshmallow root, and innovative Cell-K30-Nutrition® nucleotides, they actively support the renewal of the intestinal mucosa. The perfect, soft snack for relaxed digestion and a better quality of life.

**The gentle treat for relaxed digestion and a strong intestinal lining**

Your dog's gastrointestinal tract is subjected to extreme stress every day from food and digestive acids. When dogs are prone to sensitive digestion, the intestinal mucosa is often irritated and nutrient absorption is impaired. Since the tissue in the intestines must constantly regenerate, the body requires large amounts of specific cellular building blocks. If these are lacking, your dog's well-being suffers.

The solution is CellaVie® Dog SensitivePlus Soft Goodies. These tasty, soft treats combine pure enjoyment with highly effective cellular nourishment for the stomach. With 70% chicken (fresh meat and organs), they are exceptionally well-received. At the same time, a carefully balanced herbal blend of marshmallow root, fennel, and anise soothes the sensitive gastrointestinal tract. However, it's the 1.2% Cell-K30-Nutrition® nucleotides that make the real difference: These essential DNA and RNA building blocks actively promote the regeneration of the heavily stressed intestinal mucosa, soothe irritated areas, and stabilize the natural intestinal barrier. Reward your dog with the best taste while giving him a comfortable, relaxed feeling in his tummy.

**5 reasons why CellaVie® Dog SensitivePlus Soft Goodies are good for your dog:**

- **Soothes sensitive digestion:** A natural blend of time-tested herbs such as fennel, anise, and marshmallow root gently supports the sensitive gastrointestinal tract.
- **Promotes renewal of the intestinal mucosa:** As essential cell building blocks, the innovative nucleotides support rapid regeneration of the mucous membranes and soothe irritated areas in the gut.
- **Stabilizes the intestinal barrier and nutrient absorption:** A targeted external supply of nucleotides protects cells stressed by digestive acids, thereby improving daily nutrient absorption.
- **Highest palatability thanks to 70% chicken:** With a high proportion of juicy fresh meat and organ meats, these soft treats are an irresistible reward that dogs love.
- **Supports microbial balance:** Valuable prebiotics such as MOS and FOS, as well as licorice root and oak bark, help maintain natural digestive balance.

**Composition & Analytical Constituents**

**Composition:** Chicken (fresh meat, offal) 70%, potato flakes, vegetable glycerin, plant fibers, marshmallow root, collagen, fennel, arrowroot, anise, Cell-K30-Nutrition® nucleotides 1.2%, oak bark, licorice root, yucca, mannan-oligosaccharides (MOS), fructooligosaccharides (FOS), liver hydrolysate, chicken fat.

**Analytical Constituents:**

- Crude protein: 19.69%
- Crude fat: 13.31%
- Crude fiber: 2.06%
- Crude ash: 4.83%
- Moisture: max. 25.00%

**Feeding Recommendations & Usage**

# Product information

- **Daily Feeding Recommendation:** The Soft Goodies can be given at any time as a tasty treat or during training.
- **Usage & Special Features:** They are most effective when combined with the daily administration of the CellaVie® SensitivPlus powder mixture. Please always provide your dog with plenty of fresh drinking water.
- **Storage:** Store in a cool, dry place. After opening, be sure to reseal the package tightly to preserve the soft texture and freshness of the treats.
