Ice Tight Clay Paste

Art.Nr.: F-IT3400 / manufacturer: Farnam

55,00CHF

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Product information

Product benefits at a glance:

- Decongesting & Firming: The combination of kaolin and bentonite clays has a strong astringent effect, firms the skin, and reduces swelling.
- Nourishing & Gentle: Enriched with aloe vera (which promotes wound healing and has anti-inflammatory properties) and antiseptic boric acid.
- 100% Doping-Free: Safe for use in competitive sports.
- Easy to Use: Thanks to its natural composition, the clay washes off very easily after application.

Application & Pro Tip for Maximum Effect:

- Cleaning: Thoroughly clean the area to be treated of dirt and impurities.
- Application: Apply the clay to a thickness of about 3–5 mm.
- Bandaging (Important!): First wrap the area with plastic wrap, then with a cotton bandage.
- Note: Only by applying an airtight bandage can moisture loss be prevented, allowing the long-lasting cooling effect to fully take effect.
- Sealing: Close the bucket tightly after use.

Safety Note: For animals only. Protect from frost and keep out of reach of children.
