Art.Nr.: GAST-SAN / manufacturer:

59,05CHF

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

GastroSana by Bio Birchler restores balance to the gut.

The excellent properties of GastroSana are based on the special surface structure of brewer’s yeast (Saccharomyces cerevisiae), from which the soluble metabolites are separated and the mannan oligosaccharides and β-glucans of the cell walls are concentrated through a special process. In combination with specially selected herbs and the increased surface area of the mannan oligosaccharides, the adsorption capacity is significantly enhanced, providing relief from typical intestinal complaints such as diarrhea and watery stools.

Ideal for horses that are prone to diarrhea or watery stools. Gastro Sana soothes the irritated intestinal mucosa and supports the natural development of microorganisms in the gut. Only a completely healthy gut can deliver its full potential for greater vitality and well-being.

Product information
