Color:	black
Season:	Winter

Versatile and extremely flexible—that's the WELDON. Convenient: This all-around glove is **TOUCHSCREEN COMPATIBLE**, so you can answer calls on your smartphone without taking off the glove. The thumb and index finger feature an intricate **3D design** to enable quick and easy touchscreen operation without compromising comfort. The glove also appeals to equestrians with its slim fit. ROECKL's exclusive COMFORT CUT—a particularly comfortable design—eliminates the need for a thumb loop. The back and palm are made from **warm**, **soft**, and highly **elastic** Polartec® **Power Stretch®** Pro. An extra-heavyweight fabric is used for added warmth. The outer seams provide an additional boost to comfort and grip. Both practical and stylish: the palm, elaborately silicone-coated with countless ROECKL logos, offers **a perfect grip** on the reins. The rein area between the ring finger and little finger has

Product information

been additionally silicone-coated. The red silicone-coated pull tab makes it easier to put on the gloves, and the reflective design elements round out the well-thought-out features.
