Color:	black
Horse Size:	Cob

Some horses can only eat a limited amount of grass or need to be protected from ingesting sand. A pasture mask protects the horse from these risks while still allowing it to go outside. The faux fur trim ensures a high level of comfort and protects the horse from chafing.

- Material: polypropylene, thermoplastic elastomer
- Pasture mask for use with horses on a diet or to prevent sand ingestion
- The headpiece and cheek pieces are adjustable
- Features a faux fur trim for high comfort
- The faux fur prevents chafing
