Thick bridle:	16 mm
Size of the bit:	13.5 cm
Material:	Metal

This bit promotes acceptance of the bit and encourages the horse to lean laterally. This makes riding turns easier. The mouthpiece is held steadily in a consistently central position so that rein aids can be optimally transmitted to the tongue.

The ergonomically shaped mouthpiece allows for quick and precise influence on the tongue compared to conventional bits. The

Product information

pressure is distributed evenly across both sides of the tongue.
