| Color: | black |
| Material: | Faux leather, Leather |
| Chaps Sizes: | M (45 / 34–36) |

Our Combi Chaps are made from a combination of genuine leather and synthetic leather. The synthetic leather is used on the outside of the chaps, which makes them very easy to care for and slightly less elastic than leather chaps. The genuine leather is on the inside and provides a secure grip directly against the saddle flap. The stretch panel is located on the outer side of the calf. The zipper (which runs from bottom to top) features sturdy teeth and is secured at the top with a snap button closure. A light, elegant dressage bow adds a chic touch!

- Synthetic leather exterior and genuine leather interior
- Elastic foot strap
- Very easy to care for
- Stretch panel on the outer side of the calf

Additional Information
Sizes: XS–XL (see chart)
Material: Soft leather (inside), synthetic leather (outside)

Color: black

Uses for Combi Chaps
Combi Chaps are ideal for recreational riding. Thanks to the zipper that runs from the bottom to the top, they’re less likely to come undone while riding or to dig into your legs when wearing spurs. Simple chaps in a dark color are generally permitted at competitions. They should match the ankle boots and not create a distracting appearance for the rider.
