Product information

Color:	black
Features:	Breathable
Filling:	200 g

The perfect blanket for the horse walker, treadmill, or a walk. The blanket is designed to ensure optimal freedom of movement and prevent chafing on the shoulders. When used while the horse is moving, the Back on Track effect is optimized. This happens because the horse produces more heat, which is then reflected. The lead-out blanket has a polypropylene lining and a polyester outer layer. The lightly padded blanket features a simple front closure, cross surcingles, offers some moisture protection, and is breathable.
