52,95CHF

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Esparsette Cobs from Switzerland!

For healthy digestion and liver function, and to support metabolism, especially in sensitive horses

Gently warm-air-dried and pelleted single-ingredient feed made from the prized legume sainfoin from Switzerland. All-natural, with no additives.

The high content of essential amino acids, vital nutrients, and organically bound minerals makes Esparsette Cobs a valuable, grain-free “concentrate” for all horses:

- promotes an environment hostile to worms in the gastrointestinal tract

Product information

- ideal for both healthy horses and those with metabolic issues
- is a high-quality feed supplement to enhance the daily feed ration
- is suitable for supporting digestion
- has a high content of dietary crude fiber and condensed tannins
- is a rich source of organically bound calcium, vitamins, beta-carotene, selenium, and essential trace elements
- Contains a high level of rutin to support the elasticity of blood vessels and capillaries
- is suitable for senior horses, horses that are difficult to feed, or those losing weight
- is very digestible and has excellent palatability
- supports muscle development in performance and Western horses

Feeding Recommendations:

- Growing young horses: 0.4 kg or more daily
- Lactating mares: 0.5 kg or more daily
- Horses with poor appetites and older horses: 0.5 kg or more per day
- Sport and racehorses: starting at 1 kg daily
- Hobby horses: 0.15 daily as a high-quality grain substitute

Feeding instructions:

- Please soak before feeding! (Pour 3 cups of water over 1 cup of Cobs and let soak for about 45 minutes).
- Small portions can be fed by hand as a healthy treat without soaking.

Note: You can order a maximum of 1 bag of feed in our online store, as ordering more would exceed the weight limit for package shipping. For larger quantities, please contact us by email or phone!
