124,90CHF

incl. 8,1% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Material:	Metal
Size of the bit:	13 cm
Thick bridle:	16 mm

Thanks to the special curvature of the mouthpiece, the bit rests firmly against the entire tongue, allowing rein aids to be transmitted effectively and directly.
More than 25 years of experience with this bit have shown that it can be particularly helpful for horses that do not consistently come to the hand and do not respond appropriately to the gentler signals of double-jointed bits.
