CellaVie® Dog RelaxPlus Soft Goodies
: Cellular Nutrition for Relaxation. Dietary supplement for dogs

Brief Description

CellaVie® Dog RelaxPlus Soft Goodies are the perfect combination of an irresistible treat and cellular stress management. With 70% chicken, calming herbs such as lemon balm and chamomile, and innovative Cell-K30-Nutrition® nucleotides, they promote inner balance without making your dog drowsy. The ideal soft snack for strong nerves and greater calm in everyday life.

The tasty treat for greater calm and cellular stress resistance

Noise, unfamiliar situations, separation anxiety, or a hectic daily routine: Stress not only takes a toll on dogs emotionally but also wears down the entire organism, right down to the cellular level. During periods of stress, the need for cellular building blocks increases dramatically, as tissues that are particularly sensitive to stress—such as the intestines and structures near the nervous system—are under heavy strain. If these essential building blocks are lacking, your dog's stress resistance decreases noticeably.

The solution is CellaVie® Dog RelaxPlus Soft Goodies. These soft, extremely tasty treats combine pure enjoyment with highly effective cellular nutrition for the nerves. With 70% chicken (fresh meat and organs), they are exceptionally well-received. The carefully crafted formula combines proven, soothing natural herbs such as lemon balm, passionflower, and chamomile with 1.2% of the revolutionary Cell-K30-Nutrition® nucleotides. While the herbs naturally promote inner calm—without making your dog drowsy—the nucleotides work deep within the body to manage cellular stress. They help the body counteract oxidative stress and quickly regenerate heavily stressed tissues. Reward your dog with the best taste while giving him true inner balance.

5 reasons why CellaVie® Dog RelaxPlus Soft Goodies are good for your dog:

- Promotes inner calm and serenity: A proven blend of natural herbs—including lemon balm, passionflower, chamomile, and hop blossoms—helps your dog relax naturally.
- DOES NOT make your dog drowsy: The Soft Goodies support balance as the foundation for a better quality of life, but allow your dog to remain alert and engaged in daily life.
- Optimizes cellular stress management: As essential DNA building blocks, the innovative nucleotides help the body respond better to stress and counteract oxidative stress.
- Regenerates stress-sensitive tissues: Stress dramatically increases nutrient requirements; a consistent supply of nucleotides specifically promotes the regeneration of stressed structures such as the intestines and nervous system.
- Highly palatable as a daily treat: With 70% juicy chicken and a soft texture, these treats are the perfect, stress-relieving training snack for every day.

Composition & Analytical Constituents

Composition: Chicken (fresh meat, offal) 70%, potato flakes, vegetable glycerin, plant fibers, lemon balm, passionflower, St. John's wort, chamomile, hop flowers, Cell-K30-Nutrition® nucleotides 1.2%, white ginseng root, liver hydrolysate, chicken fat.

Analytical Constituents:

- Crude protein: 19.04%
- Crude fat: 13.42%
- Crude fiber: 1.93%
- Crude ash: 5.16%
- Moisture: max. 25.00%

Feeding Recommendations & Usage

# Product information

- Daily Feeding Recommendation: These soft treats can be given at any time as a tasty, soothing reward or during training.
- Usage & Special Features: They are most effective when used in combination with the daily administration of the CellaVie® RelaxPlus powder mixture. Please always provide your dog with plenty of fresh drinking water. Ideal for stressful life phases or restless dogs.
- Storage: Store in a cool, dry place. After opening, be sure to reseal the package tightly to preserve the soft texture and freshness of the Goodies.
