Blanket Sizes: 100 cm

The "Shetty Ecoline" cooling blanket offers excellent moisture-wicking properties. Thanks to its lightweight fleece, this cooling blanket is ideal for both winter and summer. The dimensionally stable back seam ensures a very good fit. The edging tape consists of color-coordinated stripes.

- Fleece cooling blanket for Shetland ponies
- Excellent fit thanks to the back seam
- Excellent moisture wicking
- Colored binding
- Swivel hook chest closure with additional Velcro
- Removable belly strap
- Ideal for embroidery

Size (in cm): 80, 90, 100
Material: 100% polyester fleece
Color: navy

Usage

Product information

The cooling blanket is ideal for daily use. After riding, the cooling blanket is loosely placed over the horse’s hindquarters. This allows the horse to cool down without getting too cold. Sweat is absorbed from the inside by the fleece and transported to the outside. A layer of moisture forms, but it does not seep back into the fleece; instead, it remains on the outside of the cooling blanket.

Care Instructions
Machine wash up to 30°C. Use the delicate or gentle cycle.
