170,25CHF / Piece

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Container Size: 6 kg

FREY Horse Dynamic BASIC + Mineral is a specially formulated dietary supplement for horses that do little work or belong to breeds that are undemanding and have a light appetite. The formula is tailored to the needs of horses with good natural musculature and a thick coat, and supports a balanced nutritional intake as part of their daily diet.

The combination of minerals with high bioavailability and carefully balanced forms of binding can help reliably meet nutritional needs. This makes the product particularly suitable for providing a stable foundation for the health of blood, bones, teeth, and muscle and nerve tissue. A balanced supply of nutrients can also be reflected in an increased appetite, a pleasant willingness to work, and a well-groomed coat.

Product information

- **For healthy horses with a light workload**
- **Suitable for undemanding and light-feeding breeds**
- **Minerals with high bioavailability**
