Thick bridle: 16 mm

Advantages of the double-jointed bit:

- No uncomfortable pressure on the palate • Even and comfortable distribution of rein pressure across the tongue and bars
- Better acceptance
- No nutcracker effect
- Facilitates communication between horse and rider

Advantages of the rings:

- The movable rings on the water snaffle automatically position the bit correctly in the horse’s mouth when the reins are applied.

Product information

- The free-moving rings allow the horse to slightly adjust the position of the bit in its mouth on its own, which stimulates chewing and leads to better acceptance.
- For young horses, as well as for inexperienced riders, the water snaffle should always be the first choice.

Stübben STEELtec Quality:

- No sharp edges that could injure the horse’s mouth
- Long-lasting durability thanks to carefully selected materials
- Special manufacturing techniques minimize wear on the ring holes and joint connections of the bits
