PEA (Palmitoylethanolamide) – Natural Support for Your Horse's Well-Being

Take your horse’s well-being to the next level—with PEA, the natural support for greater mobility and vitality!

PEA is a naturally occurring fatty acid compound that plays an important role in the body’s natural inflammatory response and pain regulation. It has been used successfully for years to support nerves, muscles, and joints—and is now available specifically for horses.

Product information

Why PEA for Your Horse?

- Natural Inflammation Regulation: May support the body’s own defense mechanisms against inflammation.
- Pain management: Supports normal nervous system function and may help alleviate acute and chronic discomfort.
- Optimal mobility: Ideal for horses with joint problems, osteoarthritis, or high athletic demands.
- Well-tolerated: Free of artificial additives and safe for long-term use.

Indications:

- Older horses with osteoarthritis or stiffness
- Sport horses for recovery after intense exertion
- Horses with acute and chronic pain or neurological issues

Feeding recommendation:

- Mix 1.2 g into the feed once daily
- PEA can be increased up to a maximum daily dose of 6 g

PEA (palmitoylethanolamide) is manufactured in a facility certified to GMP / ISO 14001 standards—ensuring the highest quality and purity (99.5%).

Please observe current anti-doping guidelines!
