incl. 8,1% VAT plus Shipping

Currently out of stock.

Our PAWS & PATCH flower blend, based on Dr. Bach’s STRESS EMERGENCY formula, was developed to provide general calm and relaxation in stressful situations or acute emergencies. Bach flower remedies are used as a natural calming agent for dogs and cats. The uses for this flower remedy are very diverse. Just as with us humans, our four-legged friends also experience stressful situations and pressure in their lives. Examples include a trip to the vet, a long vacation or car ride, New Year’s Eve with fireworks, a thunderstorm, or loud events with large crowds. Our Bach flower remedies have proven effective for these minor emergencies. But our flower blend can also help in more serious emergency situations. If your pet panics or needs to be calmed before or after surgery, it’s helpful to have our flower blend right on hand. This flower blend is also a must-have in any first-aid kit. Similar to Bach Flower Rescue Remedies, our STRESS EMERGENCY blend can be administered during acute problems or after an accident. As an SOS treatment, it helps bridge the waiting time until the veterinarian arrives. The use of our STRESS EMERGENCY blend differs from

Product information

that of our other flower blends. For acute problems and in emergency situations, we recommend using it over a period of several hours or a few days. Please also refer to the instructions on the packaging.
Flower essences based on the teachings of Dr. Bach:

- Cherry Plum
