11,90CHF

incl. 8,1% VAT plus Shipping

Currently out of stock.

Color: black

Soft lambskin padding to protect the sensitive bridge of the nose or the nape of the neck (with Velcro fastener).
All lambskin products are made from high-quality Merino wool and are characterized by meticulous craftsmanship. Genuine lambskin has outstanding properties that are particularly beneficial when riding. For example, the natural resilience of the lambskin ensures optimal pressure distribution and shock absorption, thereby preventing localized pressure points and chafing. In addition, the nature of the sheep's wool promotes air circulation, naturally ensuring excellent temperature regulation. Thanks to its high absorbency, the horse's sweat is absorbed immediately. Length: 27 cm
