Product information

Color: black

Sporty, stylish, cool—the ultra-lightweight uvex onyxx riding helmet for children and teens meets the highest safety standards and impresses with its first-class features and top-notch design.

One-size-fits-all: Adjustable from 3XS to XS (49–54)

Safe, feather-light, and well-ventilated—that’s exactly what a children’s and youth riding helmet should be. Whether it’s the first jumps in the arena or a trail ride: the uvex onyxx handles any terrain. With the 3D IAS system, the helmet can be perfectly adjusted to the shape of the head in both height and width and grows seamlessly with the child as head circumference increases from 49 cm to 54 cm. Thanks to the Fast-Adapting System and the one-handed Monomatic buckle, this in-mold helmet stays securely in place in any situation. This not only increases comfort but also guarantees optimal protection in an emergency.

Product Highlights

- Lightweight helmet construction with maximum impact resistance thanks to the integrally bonded shell consisting of an EPS inner layer and a polycarbonate outer layer
- Optimal fit to head circumference and head shape thanks to the uvex 3D IAS system, including height adjustment
- The FAS strap can be easily and continuously adjusted to precisely fit your head shape
- One-handed opening of the helmet thanks to the anatomically shaped uvex monomatic comfort closure
- Optimized air circulation thanks to cleverly designed ventilation openings
- Made in Germany
