CellaVie® Dog SensitivPlus Powder
—Cell Nutrition for the Gastrointestinal Tract. Dietary supplement for dogs

Brief Description

CellaVie® Dog SensitivePlus Powder is a tailor-made cellular nutrient for a healthy gastrointestinal tract. It combines soothing natural herbs such as fennel and marshmallow root with 12% innovative Cell-K30-Nutrition® nucleotides. These specifically support the renewal of the intestinal mucosa, strengthen the digestive barrier, and thus naturally promote greater well-being and improved nutrient absorption.

Gentle soothing and cellular regeneration for a healthy gastrointestinal tract

The gut is the body's largest immune organ. It is subjected daily to significant stress from food and digestive acids. To cope with this stress, the cells of the intestinal mucosa (enterocytes) have an extremely short lifespan and must completely renew themselves every few days. The problem: This constant renewal requires the body to utilize enormous amounts of specific building blocks. If these are lacking, dogs often react with sensitivity, irritated mucous membranes, and digestive problems.

The solution is CellaVie® Dog SensitivePlus Powder—a gentle yet highly effective cellular nutrient for sensitive dogs. The carefully formulated blend combines soothing natural herbs such as marshmallow root, fennel, and anise with prebiotic building blocks (MOS, FOS) and 12% of the revolutionary Cell-K30-Nutrition® nucleotides. The targeted supply of nucleotides supports the regeneration of intestinal villi at the cellular level. Instead of merely alleviating symptoms, this powder tackles the problem at its root: It rebuilds the gut's protective barrier, soothes irritated areas, and restores the foundation for quality of life and well-being.

5 reasons why CellaVie® Dog SensitivePlus Powder is good for your dog:

- **Soothes sensitive digestion:** The proven combination of natural herbs such as fennel, anise, and marshmallow root gently supports the sensitive gastrointestinal tract.
- **Accelerates mucosal renewal:** Since the cells of the intestinal mucosa must completely renew themselves every few days, the 12% nucleotides provide exactly the essential building blocks needed for this rapid process.
- **Promotes a healthy intestinal barrier:** The targeted supply of nucleotides actively supports the regeneration of intestinal villi, providing long-term protection for irritated areas.
- **Noticeably improves nutrient absorption:** Longer intestinal villi and an intact intestinal barrier mean better nutrient absorption and significantly fewer intolerances.
- **Supports microbiological balance:** Valuable prebiotic ingredients such as MOS and FOS, as well as oak bark and licorice root, help stabilize digestion and restore natural balance.

Product information

Composition & Analytical Components

Composition: Marshmallow root, collagen, fennel, arrowroot, anise, Cell-K30-Nutrition® nucleotides 12%, oak bark, licorice root, yucca, MOS, FOS.

Analytical Constituents:

- **Crude protein:** 24.12%
- **Crude fat:** 0.81%
- **Crude Fiber:** 11.56%
- **Crude ash:** 1.47%

Feeding Recommendations & Usage

- **Daily feeding recommendation:** 1 measuring spoon per 8 kg of body weight.
- **Usage:** Simply mix the powder into your dog's regular food. You can also lightly moisten the mixture with water and then sprinkle it over the food to ensure optimal intake.
- **Special Notes:** Please always provide your dog with plenty of fresh drinking water. Ideal for dogs with sensitive stomachs or after periods of digestive stress.
- **Storage:** Store in a cool, dry place away from light to preserve the effectiveness of the high-quality ingredients and herbs.
