Innovation to the power of three! With the lightweight, supple MELBOURNE riding glove, ROECKL SPORTS introduces its exclusive new development, **ROECK-AIR**. The exceptionally **thin material** on the palm is durable, **offers sensational sensitivity** on the reins, and **is highly breathable** thanks to micro-perforations. You'll hardly notice you're wearing a glove. Plus, it's fully **TOUCHSCREEN COMPATIBLE**. The new material is combined with an equally new, **supple** Lycra blend made from ECONYL® yarn and spandex on the back of the hand. ECONYL® yarn is made entirely from recycled nylon waste (e.g., old fishing nets) and can be recycled an infinite number of times without any loss of quality. Added to this is the new, extra-long, and **silky-soft** cuff. This allows riders to comfortably wear their watch over the glove, which is especially beneficial for eventing riders because it keeps their time in plain sight at all times. For the cut, ROECKL relies on its proven **COMFORT-CUT**, and a soft, wipe-friendly thumb completes
