Currently out of stock.

Color:	black
Size of Gaiters / Bell Boots:	L

These exclusive training gaiters feature a unique, flexible Carbon Storm EVA cushioning zone. The ergonomic shape and special construction ensure a perfect fit and maximum comfort. The gaiter impresses with its outstanding protection, as well as its lightweight yet durable design. The mesh fabric ensures constant 360° air circulation and even dissipation of heat radiated from the horse’s leg.The gaiters are secured with a sturdy Velcro closure system, which allows for quick and easy application while providing a secure fit. (Size M: 2 Velcro closures; Sizes L & XL: 3 Velcro closures)
We recommend hand-washing the gaiters or machine-washing them at a low temperature on the gentle cycle with the Velcro fasteners closed.
