Currently out of stock.

Color:	black
Horse Size:	Full

The “Zora” dressage bridle is made of high-quality German leather and features an exceptionally soft headpiece that is strongly anatomically contoured with a cutout. The soft padding on the noseband and browband also provides exceptional comfort for the horse. The noseband is adjustable on both sides. The bridle is supplied without reins.

KavalSH4 – Removable stop strap without a visible attachment
For bridles with the KavalSH4 designation, the stop strap is removable. What makes this special is that the mounting for the stop strap is not visible, unlike on conventional bridles with removable stop straps.

German leather is of the highest quality and is particularly supple, soft, and feels very natural. The leather conforms well to the horse’s head, resulting in fewer chafing and pressure marks. German leather is known for its softness, natural grain, and durability.

- Swedish-style combination noseband, adjustable on both sides
