Thick bridle:	15 mm
Size of the bit:	12.5 cm
Material:	Plastic

The Trust Inno Sense 3-Ring Flexi Soft Bit features metal cheek pieces and a soft plastic mouthpiece. The 3-ring bit is a very sharp bit with a strong leverage effect, making it suitable for very powerful horses. Due to its direct and strong effect, it should only be used by experienced riders. As a general rule, the lower the reins are attached, the stronger the leverage. The mouthpiece is a flexible rod consisting of a metal core covered with a plastic sheath. The plastic is free of plasticizers and non-toxic to both humans and animals. Due to the soft texture of the mouthpiece, it is very well accepted by most horses and is also suitable for horses with sensitive mouths. Note: Since the material is soft, signs of wear from the horse’s teeth may occur. These do not constitute a quality
