Elite Bridle with English-Style Combination Noseband “BY CHRISTIAN AHLMANN” – Dark Brown-HA Discover the new IKONIC Elite bridle now Usage In collaboration with one of the world’s best show jumpers, Christian Ahlmann, we’ve developed a bridle that offers your horse maximum comfort. IKONIC by Christian Ahlmann. An anatomically shaped snaffle bridle that minimizes pressure points. A double lining of soft calfskin and foam, with an “air gap” in the center, completely relieves pressure on the first cervical vertebrae, ensuring optimal comfort. As with all bridles in this series, the cheek pieces are integrated directly into the headpiece, which prevents localized pressure on the neck. Features - Wide, anatomically shaped headpiece - Anatomically shaped, combined noseband - Cheek straps are integrated directly into the noseband via a soft, “Y”-shaped piece - The chin strap is integrated and widens at the points where it connects to the noseband Buckle color: Brass - Without reins
