Product information

HB-Classic Body-Move-Pad Basic-Relax Jumping

The new, improved Body-Move-Pad Basic Relax Jumping (made in Germany by st-eb) is now also available for jumping saddles. It alleviates the pressure of the properly fitting saddle on the horse’s back without compromising the rider’s connection to the horse or the ability to give subtle aids. This cushioning effect helps keep the horse’s back muscles relaxed. Combined with the excellent climate-regulating properties of the material used, the horse feels comfortable under the saddle, can move freely and unhindered, and can relax its muscles. Please always re-tighten the girth several times at the beginning. After the first wash and the first few uses, the Body-Move pad will fit perfectly.
The benefits at a glance:

- durable pressure elasticity
- Gentle on the horse’s muscles thanks to its anatomical cut
- supports muscle development
- Optimal climate comfort
- Perfect moisture management
- Extremely abrasion-resistant and colorfast
- Easy to care for (machine washable)

Size of Body-Move-Pad for Jumping: Total length 70 cm Length to withers opening: 50 cm Height (thigh side): 45 cm
