Product information

Rice Bran Oil, 100% Pure, 3000 ml

Art.Nr.: 1591-1.3 / manufacturer: Horseandmore

44,90CHF

incl. 2,6% VAT plus Shipping

Delivery **Mon 09. Nov - Tue 10. Nov 2026**

Container Size: 3,000 ml

Rice bran oil is a yellowish-brown, clear, and flavorless oil that can promote your horse’s enthusiasm for movement and muscle development. It is rich in oleic, linoleic, and palmitic acids. A characteristic feature of this oil is its high content of gamma-oryzanol (approx. 1–2.0%).

- 100% pure natural product for animals
- Rich in essential fatty acids
- No additives or preservatives

Product information

Extraction of rice germ oil Rice germ
oil (rice oil) is obtained from the bran of rice grains (Oryza sativa) through extraction and subsequent refining with deodorization (refined rice germ oil). Rice (Old Indian “vrihi” / Latin “oryza”), a member of the grass family and primarily cultivated in tropical and subtropical regions, is the world’s oldest cultivated plant.

Refining for Stable Oil
While cold pressing is the better choice for many vegetable oils, rice bran oil must be refined. This is the only way to ensure the oil, with its sensitive components, remains stable. The oryzanol content in rice bran oil is approximately 3,000 mg/kg.

Rich in Valuable Fatty Acids
Rice bran oil is rich in unsaturated oleic acid (38–43%), linoleic acid (32–43%), and palmitic acid (15–20%).
Caution During Competitions. Please observe the anti-doping and drug testing regulations for equestrian sports.

Note: Our rice bran oil is a natural product and is therefore subject to natural variations. Sediment, cloudiness, or changes in taste and color are natural occurrences. Store in a cool place away from light.
