ZEDAN Geruch-Ex reliably and long-lastingly eliminates unpleasant stable odors from various materials such as clothing, car seat covers, saddle pads, boots, and other textiles. It also effectively removes sweat odors from clothing, as well as urine and household odors.
The product is fragrance-free and does not simply mask odors, as many other products do, but breaks down odor molecules through a catalytic process. The active ingredient*, developed using a patented process, is not consumed in the process but can repeatedly neutralize additional odor molecules.
Directions: Spray
generously onto the sources of odor. If necessary, brush in or spread evenly. ZEDAN Odor-Ex takes effect after the materials have dried.
