Bandaging Pads: M (40 x 45 cm)

Our best-selling "Klimatex with Velcro" bandage pads, with their thick cotton-wool filling, provide ideal protection for horses' legs. The soft fleece fabric prevents pressure points and chafing, and the longitudinal quilting distributes the pressure from the bandage more evenly across the horse's leg. The special mesh fabric ensures that the bandage pads are breathable. The best part: The pads feature a Velcro closure that makes bandaging easier and helps prevent wrinkles.

- Ideal protection for a horse’s legs during training
- thick cotton-wool padding
- Longitudinal stitching for even pressure distribution
- Breathable
- Velcro makes bandaging easier and prevents wrinkling
