HS Sprenger Cheek Piece

These cheek pieces from HS Sprenger are the perfect link between the noseband and the bit. They are made of soft leather and a round-braided nylon cord. Both are very durable materials that ensure a long service life and adapt perfectly to the horse’s head. The HS logo on the leather makes these cheek pieces a real eye-catcher and gives them a very elegant look, making them not only ideal for daily training but also suitable for use at competitions. The cheek pieces are 45 cm long, which fits nearly every horse. An incredibly practical riding accessory that you definitely shouldn’t miss out on at this price!
