Product information

Color: blue

To manufacture a hybrid helmet, you have to combine different production techniques. This allows us to use materials that make the helmet lighter overall. However, these various technologies also enable us to meet the cycling standard, so that the riding helmet can also be used for trips to the stable in the future.

Ventilation Concept18 ventilation openings and intelligently connected internal vents and air channels ensure good ventilation and keep your head cool both on and off the horse.

Safety Features
The helmet shell, which extends low down, enhances safety in the neck and temple areas.

Easy Zoom
The easy-to-use Easy Zoom adjustment system allows for optimal adaptation to different head shapes and is height-adjustable. The adjustment system features a ponytail opening, so long hair fits
comfortably
Optimal Fit
In addition, the straps and the closure can be adjusted in length to ensure an optimal fit. The closure system is equipped with a comfortable chin pad for a pleasant fit.

Removable visor
Thanks to the removable visor, the riding helmet quickly transforms into a bicycle helmet.

DesignTone-on-tone design elements give the helmet a sophisticated look.

AirDuoAvailable in midnight blue or black, the helmet is simple yet elegant and high-quality. It comes in either a matte or glossy finish, depending on your preference.
The helmet is available in XS (fits head sizes 48–52 cm), S (fits head sizes 53–56 cm), and M (fits head sizes 55–58 cm).
