Size of the bit:	13.5 cm
Thick bridle:	14 mm

Advantages of the Silver Wings Bit:

- Gentle on the mouth and comfortable
- The side plates of the bit prevent painful pinching of the corners of the mouth and ensure a stable position in the horse’s mouth.
- The bit plates allow for gentle lateral pressure on the horse’s mouth and can assist with bending and turns

Pressure Distribution

- The double-jointed mouthpiece applies even pressure across the horse’s tongue and lower jaw.

Product information

- The loose rings allow the horse to move the bit independently within its mouth and bring the mouthpiece into a neutral position.

Stübben STEELtec quality:

- No sharp edges that could injure the horse’s mouth
- Long-lasting durability thanks to carefully selected materials
- Special manufacturing techniques minimize wear on the ring holes and joint connections of the bits
