Currently out of stock.

Size of the bit:	13.5 cm
Thick bridle:	16 mm

The bits in the Shine Bright Edition are adorned with glass crystals on the sides. This snaffle bit comes in the color Aquamarine!

KK ULTRA bits achieve their unique, precise effect through the special 45° angle of the shank. When used correctly, this promotes the horse's trust in the rider's hand, which is why these bits are used successfully worldwide in all disciplines and across all training levels—a true all-around talent!
Compared to previously available bits, the center piece has also been shortened. This anatomical adjustment noticeably optimizes

Product information

the effect compared to conventional double-jointed bits.
When the reins are taken up, the center piece—also called an “olive” due to its distinctive shape—rolls gently over the central part of the horse’s tongue, thereby stimulating its sense of touch. The connecting rings attached to the center piece roll softly over the tongue without exerting pressure.
