Product information

Color: black

The evolution of the feather-light all-rounder: The uvex exxential has undergone a complete redesign. The helmet sets new standards in safety and comfort. Available in five matte color combinations and two crystal-embellished “Glamour” versions, it impresses with uncompromising safety and unbeatable value for the money.
uvex product developers and designers have poured all their expertise into the further development of this riding helmet. The result is the uvex exxential II glamour: a very lightweight riding helmet with an innovative shape and design that is ergonomically tailored to the needs of riders. One of the safety-related innovations, for example, is the outer shell that extends to the back of the head. It ensures maximum safety—even for the back of the rider’s head. A cutout for the ponytail—the so-called “ponytail cut”—ensures a comfortable fit. This riding helmet offers comfort and comprehensive protection like never before.
Thanks to its in-mold construction, the uvex exxential is very lightweight (starting at 400 grams) while offering the highest level of safety. The improved climate control keeps your head cool at all times. With the uvex Monomatic comfort closure, the FAS strap system, and the IAS 3D size adjustment, the helmet can be adjusted multidimensionally to fit the rider’s head shape with millimeter precision. Like all uvex helmets, the uvex exxential II glamour meets current safety standards at all times and exceeds them as well.
