Color:	brown
Season:	Winter

With its timeless and stylish, urban look, the versatile WIESBADEN keeps your hands pleasantly warm during rides on cold winter days. High-quality **functional materials** and sophisticated craftsmanship are the secrets behind the success of these **elegant, comfortable gloves**. The highlight is the **exclusive** SUPREMA by ROECKL **synthetic leather**. Visually almost indistinguishable from nappa leather, it offers excellent tactile feel, high **breathability**, and ensures a **superb grip** on the reins at all times. It's also very **elastic** and machine-washable at 30°—a clear advantage over genuine leather. The combination of PrimaLoft® Gold insulation with Grip Control and a GORE-TEX INFINIUM™ **WINDSTOPPER®** lining **effectively** keeps your hands **warm** even in a freezing cold wind. Furthermore, the long, slim design with a snug-fitting knit cuff and practical top-of-hand strap enhances thermal performance

Product information

and ensures a great fit. In short: The WIESBADEN is the perfect companion when temperatures drop, and it also looks great as a casual glove.
