Flaxseed Oil for Animals, Cold-Pressed

Art.Nr.: 372GA1 / manufacturer: Horseandmore

12,60CHF

incl. 2,6% VAT plus Shipping

Delivery **Sat 07. Nov - Mon 09. Nov 2026**

Product information

Fresh, cold-pressed flaxseed oil made from pure flaxseeds, 100% pure—no additives.

Flaxseed oil can help stabilize performance and promote vitality by positively influencing overall metabolism. It can improve the condition of the skin and coat and support digestion.

With 51% linolenic acid, flaxseed oil has a high content of omega-3 fatty acids, as well as 19% oleic acid and 17% linoleic acid (omega-6).

Note: At temperatures below freezing, the oil may become cloudy or form flakes. It will clear up again at room temperature. This does not indicate a reduction in quality but rather reflects the gentle production process and the product's natural state.

Our oils are cold-pressed (below 40 degrees) under moderate pressure. We consistently avoid the extraction and refining processes that are often standard practice. This prevents subsequent heat damage, chemical and physical changes, or processing residues. The final product also contains no preservatives or other additives.

Our flaxseed oil is freshly pressed from regional flaxseed in a small oil mill. Our oils are bottled using a vacuum filling system, ensuring that the oil comes into contact with no pumps or metal parts whatsoever.

Flaxseed Oil for Horses
